

Department of Information Technology B.Tech. III year (EC) IT35XXX-AI-ML

Time: 1hr

Marks: 20

Q.No	Questions	CO	Marks
1	Explain the concept of Artificial Intelligence and intelligent agents. Describe the components of an intelligent agent.	01	04
2	Explain problem solving in Artificial Intelligence. Discuss problem formulation and explain any one search algorithm.	01	04
3	Describe Knowledge, Reasoning and Planning (KRP) in Artificial Intelligence. Explain how uncertainty and imprecision are handled in expert systems.	02	04
4	Define a Fuzzy System. Explain its need and importance in handling uncertainty and imprecision with two examples.	02	04
